

## Environmental Consciousness and Sustainability

### *7.1.2 The Institution has facilities for alternate sources of energy and energy conservation measures*

#### **Solar Energy and Use of LED bulbs in Classrooms**

- The college has installed LED bulbs in classrooms
- “Save energy” initiative is taken by the students’ union to make students aware by making them switch off lights and fans before leaving the classroom. •
- The College has initiated the promotion of alternate energy sources by installing solar panels for our energy consumption. Though it is a quite minimal percentage of our total power requirement but definitely the college plans to increase the other renewable sources in future.
