

1. Symptoms of COVID-19 may appear 2-14 days after exposure.
  2. In 80% of patients, COVID-19 causes only mild cold symptoms.
  3. The elderly, and those with pre-existing medical conditions appear to be more vulnerable to the virus.
  4. Right time for all of us to do our Social duty by spreading awareness to others & just be at home.
  5. Precaution is only cure.
